9. REPORT OF TOWN OFFICIALS:

- **Highway:** Highway Superintendent Brad Schiralli gave his report to the Board.
All of the chips receipts have been submitted to New York State DOT for reimbursement. The total for this year's submission is \$160,661.56. We have a current rollover balance of \$5, 459.51.
We finally got the 2021 International dump truck back from FleetPride. This was the truck that was involved in an accident, that caused an estimated damage of \$15,000, on August 25th. So far everything seems to be working well. FleetPride is still waiting on a radiator shroud to be able to complete with their work.
The sale of the 1998 Case 580 backhoe, on Teitsworth Auctions, brought in a total of \$16,300.
The first snow of the season came on Monday November 14th. We ended up having to plow and sand some of our hilltops. We are currently still getting some of our plow and sanding equipment ready for service.
I'm going to go ahead and order the ground protection mats for the cemetery, as we discussed earlier this summer. I will be getting the cemetery mats from Bobcat of Olean. The price on each of these mats is \$247.15. This price is comparable to other companies that we had gotten price quotes on with no additional freight charges.
The single axle Sterling that we had put a different sander box on last year and used for the 21- 22 snow removal season. The new box that we had installed is a rear discharger sander opposed to the front discharge sander that was on it prior. This truck plows and sands some of our steepest hills which include White Hill and California Hollow. Last year there were several incidences that we could not make the hills or had taken slippery rides down the hills. I would like to put screw in studs in the tires of this particular truck for extra added safety precaution. The studs run about a \$1. 10 per piece. And there are approximately 72 studs in each tire. This would be a small price for extra security measures.
The town employees will be going back to their winter hours which will be 5 8-hour days Monday through Friday. This shift change will start, the week of November 21st.
Mr. Schiralli also updated the Board with the truck mileage and equipment hours.
