

August 15, 2023

(Regular Meeting August 15th, 2023 cont.)

- **Highway:** Highway Superintendent Brad Schiralli gave his report to the Board. Chip seal, on Olive Street, Kossuth Road, and McKee Road. We had a slight bit of contamination of the 1A limestone we had trucked in from Leroy New York. The contamination of the stone was number three stone mixed throughout all the recent loads we received. I've been in contact with Dolomite corporation to come up with some sort of reimbursement. We installed the new 6-foot diameter by 60 ft long sluice pipe on the Kansas Hollow. Allegany county DPW assisted us, with an excavator and manpower to change out this sluice pipe. Currently we are still doing cleanup around this work site. The sluice pipe, that is located by the Moore Memorial Pool, needs to be looked at to see what condition it is in. We will see if we can borrow a camera to look in there. We still have not fixed the leaky roof in the old shop. I have roof fiber coating to paint the roof with when we get a few nice days without rain. We are continuing to clean up after the July 3rd flash flood event. I have taken lots of pictures of the areas that were impacted in the Town of Bolivar by the flash flood event. I've been in contact with Allegany County Emergency Management Services on possible FEMA funding for this event. As of right now there will not be any FEMA funding for the July 3rd event that cause damage to the Kansas Hollow, Mead Hollow, California Hollow, Foreman Hollow, and Bartlett Road. The surprise inspection we had at the highway garage back in May, we have not received a response from New York State about the violations. Gary Sanders is the name of the person that came in and did the inspection on the highway garage. I have tried calling the number that Gary Sanders had given me with his business card and the number has been disconnected. Not sure where to go from here on if this was even a legit inspection of our highway garage. The checklist that he had written up and given to me at the end of his physical inspection; the town has performed remedial action on these violations, and we have fixed almost all of them. Today we picked up the stainless-steel sander we had purchased from New Albion highway department located in Cattaraugus County. Just a reminder the town will still need to purchase a 1-ton pickup sander before our winter season starts. Highway Superintendent Schiralli updated the Board with the truck mileage/equipment hours.
- **Code Enforcement:** No report for July submitted. No applications were turned in.
